AN OUT OF THIS WORLD GIFT

The National Geographic 90/1250 is an automatic Cassegrain telescope with Maksutov-Cassegrain optics.This automatic telescope is suitable for beginning as well as slightly advanced astronomers. This telescope is developed by National Geographic, the famous American geographic society, in collaboration with Bresser.

GoTo-System

The National Geographic telescope has a lens diameter of 90 mm and a focal length of 1250 mm. The moon and its craters, Saturn and Jupiter are just a few of the many objects you can see through this telescope. If you would like to start working with a GoTo-system this telescope is a great way to get started. This automatic GoTO-system, as well as the LED viewfinder, will help you to find specific celestial objects, like comets and planets. This telescope is equipped with an aluminum tripod, but can also be placed on a table.

Accessories included

When you chose this National Geographic 90/1250mm you will not only get the telescope, but also a set of accessories. In addition to the telescope two eyepieces (with a diameter of 12,5 and 25 mm), a moon filter, a star map and a user manual are included. You will also get a CD-rom with astronomy software to help you find your way in the night sky.

Ug5061 NAT GEO 90MM MAKSUTOV-CASSEGRAIN GOTO TELESCOPE MAP: R 9,995.00

What's in the box?

1 x National Geographic 90/1250mm GoTo Maksutov Cassegrain Telescope
1 x GoTo Handbox
1 x aluminium tripod
1 x compass
2 x eyepiece (12,5 and 25 millimeter)
1 x LED viewfinder
1 x moon filter
1 x star map
1 x user manual
Astronomy software

TWYST BY NEBO

A flashlight that does it all...with a TWYST™! The TWYST™ features a high-power flashlight, work light and lantern all in one! The TWYST™ uses 3D C•O•B LED technology that allows the shaping of light into full 3D patterns, giving optimal, bright, uniform light exactly where it's needed. The TWYST™ features a 120° beam pattern in work light mode and a 360° beam pattern when used in lantern mode. Retractable base stabilizers are positioned at the bottom of the flashlight to give added stability on uneven surfaces. A powerful magnetic base also provides convenient hands-free lighting. TWYST™... shaping light like never before!

Powered by 4 AA batteries (incl.)
